

U10 – Ryan Clark

Hello future U10 (Minor Atom) MTK hockey families,

I am really looking forward to our 2020-2021 hockey season and being back at the rink. This upcoming season will provide a great opportunity for kids to get introduced to competitive hockey and I want to quickly convey what my goals and approach for the coming year will be. First and foremost, hockey should continue to be fun and I want to continue to foster a passion for the sport. As head coach, I feel responsible to provide positive energy, constructive coaching, and positive reinforcement to achieve this. Kids should be excited to get to the rink for every game and practice. Secondly, we will be focusing primarily on the development of fundamental skills throughout the year. I believe in running well planned and structured practices and while we will introduce basic gameplay tactics, we will spend most of our practice time improving fundamental skills. Lastly, I want to foster a strong team atmosphere of respect and sportsmanship within both our team and our community. I believe the byproduct of these three goals will lead to success both on and off the ice. This season is going to be a blast!

I cannot wait to see everyone at the rink,

-Ryan
